Being busy isn’t always good. But being lazy is never the right idea. Jesus told a story about some servants who worked and one who didn’t.

He told this story because Jesus wants us to do our best for God.
An important man was going on a journey. He was a master and had several servants. He asked his servants to look after his home and business when he was away.

Each servant was given an amount of money that the master knew they could cope with.
